

SURESTAIR LVL STAIR STRINGERS

VERSATILITY

SureStair LVL Stair Stringers from Engineered Wood Products Inc. are engineered for strength and stability. Made by bonding thin wood veneers under high pressure, they ensure solid and secure stairs with consistent strength throughout. Cost-effective and compliant with building codes, SureStair Stair Stringers support longer spans without extra support, saving on construction costs. For added versatility, paint-primed options offer a customizable and aesthetically pleasing solution, perfect for creating personalized staircases.

QUALITY

Our products are crafted in a 100,000 square foot facility using sustainable materials and eco-friendly practices. Our commitment to quality, sustainability, and customization sets us apart. ICC-ES certification ensures our engineered wood products meet strict building code requirements for construction use.

SUSTAINABILITY

The FSC (Forest Stewardship Council) certification guarantees our timber is sourced from responsibly managed forests meeting strict environmental, social, and economic standards. This ensures our wood products support biodiversity conservation and sustainable forestry practices. Choosing FSC-certified timber promotes responsible forest management and environmental stewardship.

LVL STAIR STRINGERS

LVL (Laminated Veneer Lumber) is a top-notch solution for stair stringer applications. This engineered wood product is made by layering multiple sheets of wood with a durable exterior adhesive, creating structural composite lumber. Our Stair Stringer LVL is crafted with a Radiata Pine base, exterior glue, and a premium primer, offering a smooth, paint-ready surface. Compared to traditional lumber, this material significantly reduces the risk of warping, twisting, bowing, or shrinking. While it looks similar to plywood, LVL's wood grain is consistently aligned parallel to its length, providing exceptional strength and stability.

PRIMED RISER MATERIAL

Elevate your staircase with our affordable Primed LVL Risers! Engineered for durability, these risers are double-primed and sanded smooth, needing just one final coat of paint. Perfect for interior staircases and more, they ensure a flawless finish. Our finger-jointed risers are precision cut for consistent quality and easy installation. Available in the following sizes:

Pre-Cut Packs	Full-Length
3/4" x 8 1/4" x 36" Long	3/4" x 8 1/4" wide x 120" long
3/4" x 8 1/4" x 42" Long	3/4" x 8 1/4" wide x 192" long
3/4" x 8 1/4" x 48" Long	
3/4" x 8 1/4" x 52" Long	

GENERAL INFORMATION

Handling and Storage Guidelines:

Protect Stair Stringers from weather and store flat.

Avoid ground contact during storage.

Use wrapped bundles with 2x4 stickers for support and air circulation.

Shield from weather on job sites before and after installation; suitable for covered, dry conditions only.

Avoid installing wet or visually damaged products.
